

I just received notification that The Consumer Bakers Association (CBA) has filed a petition (docket Number 02-278) to get around the Indiana Telephone Privacy Law. Please don't allow this to happen!!!!!! There is a reason that people sign up to be on this list. If you do this you would be taking away the individuals rights in favor of corporate america and thats just wrong anyway you look at it. I went on the no call list because I have elderly parents and in-laws who are in poor health and had a very real need to be able to reach me in emergency. Before the no call list a lot of times we would avoid answering the phones becuase we figured it was a telamarketer or spend the whole evening saying no thanks. I don't want live my life like that again and that is what you would be forcing me to do if you allow this petition to go forward.

Regards,

Lori Moody
